

Phone A Doctor Profile

For a very long time, Nigerians have suffered in the hands of successive Governments and gone without adequate Healthcare. The result is that many die needlessly for the slightest of medical issues and many walk the streets of Nigeria without knowing if they have serious medical conditions or not.

Government Hospitals have been grossly inadequate and Private Clinics have not been able to fill the gap that should ensure every Nigerian has unrestricted access to Healthcare. Funding of the Health Sector has been extremely low and even Doctors in Public Hospitals are without the necessary Tools and Experience to provide Nigerians with Modern Diagnosis and Healthcare Facilities.

The thinking behind Phone A Doctor is to help more Nigerians to access the resources currently available and in a timely manner. Nigerians have had a need for a 24/7 access to Healthcare and the arrival of **Phone A Doctor** (PAD) makes that possible. We truly believe that PAD will help existing healthcare providers to concentrate on what they know to do best and not worry about where the patients come from.

Our goal is to invest heavily in the Healthcare Sector, train more Doctors to ensure Nigerians are able to buy Healthcare locally rather than take valuable money abroad. We have plans to work with existing Public and Private Healthcare Providers to make more Modern Medical Facilities that are available locally so that our referral service is truly the best anywhere in the world.

Phone A Doctor is designed to be your one-stop-shop for all your medical needs. We have assembled in our website all the resources you need to adequately look after your own health and the health of the other people who depend on you. Our approach to your Healthcare is really simple – **YOU CALL :: WE LISTEN :: WE REFER!**

When you call us, our Doctors will patiently listen to you. They will ask questions to identify what the issue is and then recommend a line of action and refer you to a proven medical resource such as a Clinic, Laboratory, Pharmacy and so on. At **Phone A Doctor**, we are Customer-Centric and everything we do revolves around the Patient.

Phone A Doctor Profile

Why PAD?

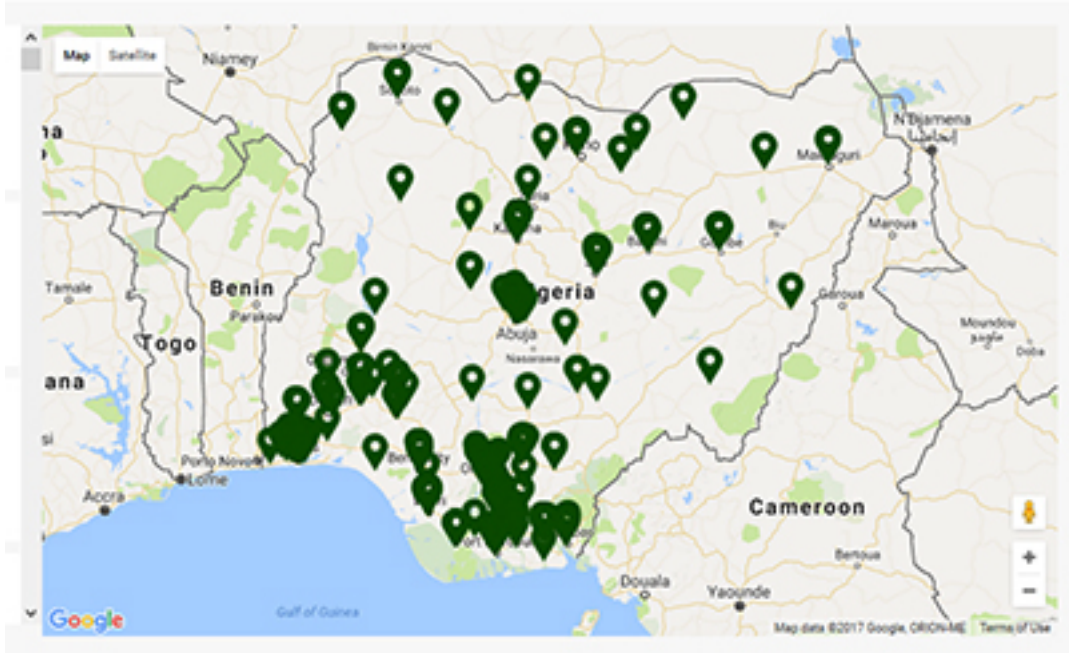

If you like, you could describe Phone A Doctor as the 'new kid on the block' with many novel ideas to help modernise Nigeria's medical industry.

We have young and highly professional Doctors offering Triage online and referring patients to proven medical service providers in a timely manner.

All we really want to do is offer every Nigerian access to a doctor within a few minutes of needing medical attention.

We are not in competition with any medical resource because we only offer Triage online and subsequent referral to a proven clinic, laboratory, pharmacy or other medical facilities we already checked out.

Medical Resource Map of Nigeria

We have created the first medical resource map of Nigeria so that anyone anywhere could search for a medical resource on our website. Our medical resource database will also help to refer our patients to the right Clinic, Hospital or Laboratory for necessary scans. If you provide medical service, see if your medical practice is listed.

Phone A Doctor Profile

We want Service Providers to Partner with us

We want you to partner with us to make Nigeria a better place to live in for Nigerians and better place to visit for non-Nigerians. We want people to be assured and confident of the fact that Nigeria has a first-class medical infrastructure on the ground and it could be accessed on a 24/7 basis with little or no effort. We take the calls, we triage the patients and we send them to you for treatment and follow-up. Here are some of the reasons we want you to partner with us:

- We would send you referrals on a preferential basis
- We are offering every partner a FREE Online Appointments Booking Service.
- We are offering you The PAD Badge, a sign of Top Quality Medical Service
- We offer you Preferential Search Position in the Medical Resource on our website.
- We have deep pockets to invest in medicine and we have already started to do so.
- We have Statistics and Trend analysis that show us the direction of the medical industry in Nigeria and embark on surveys that will help to influence Government decisions.
- We have the technical know-how to make some noise and reach the patients you cannot reach and refer them to you.
- We will work with you to locate modern medical facilities in your clinic.

We want Institutions to Partner with us

The Nigerian workforce cannot function adequately without the provision of efficient healthcare. Partner with us and we will do the following:

- We offer special rates to Employers, Insurance Companies and Governments.
- We offer an API integration to make reaching a Doctor easier from your website.
- We offer you the PAD Badge that shows you as a responsible employer paying attention to employee healthcare.
- We work with you to locate Doctors for additional attention to your employees

Pad is open to your ideas and feedback so we better understand how to serve you and your employees or subscribers.
